UCLA SMP School Management Program

Slice Protocol Guiding Questions

Please take the next 15 minutes to look for evidence in the student work related to the following questions. Write down examples of the evidence you find and be prepared to share what you find with colleagues.

1. **What evidence do you see in the work that there are opportunities for student creativity and self-expression, and that connections are being made between students' lives and their learning?**

2. **What questions emerge for you from looking at the students' work?**

3. **What next steps for instructional focus are indicated by the work samples?**
